. . So is it the same but better? I know, many problems, but I am new and don't know all the things you know. . . . Some parts look that old (compare the one from 14). And about new parts, the only thing that I know is that there is 1% decrease in weight. I just don't know if it will be really a noticeable difference. And if it is, is it worth the price? So is it the same but better? I know, many problems, but I am new and don't know all the things you know. . . . Some parts look that old (compare the one from 14). And about new parts, the only thing that I know is that there is 1% decrease in weight. I just don't know if it will be really a noticeable difference. And if it is, is it worth the price?[...] If you look at the 14.6 model it is very hard to find any updates. Lots of changes, but still 14.6 and 14.5 look exactly the same and I can't even see the new 14.6 model. [UPDATE] Is it really worth to invest this money on the 14.6 model with these changes? I had the same problem, my car is a 14.5 and I was wondering if i should get the 14.6 because its got more features, I have the V8i wich is the same thing as the 14.6 but it can also be an engine. I had the same problem, my car is a 14.5 82157476af
